

The all-in-one labor platform built for restaurants

7shifts helps you easily manage your teams' schedules, timesheets, communication, tasks, tips and more—all in one place.

80%

Time saved on scheduling

3%

Reduced labor costs

70%

Reduced calls & texts

How 7shifts helps your restaurant:

Stay connected with your team

Keep your entire team informed with built-in chat, announcements, and shift feedback. Publish new schedules directly to your staff's email or mobile device so they always know when and where they're working.

Manage your team's availability

Adopt workforce management that manages itself by having your team submit time-off and availability requests directly through their free mobile app for managers to approve. Quickly find staff to cover last-minute absences and fill open shifts with ease.

Easily schedule based on your changing labor needs

Simplify scheduling with our drag-and-drop schedule builder that automatically factors in overtime, availability, and regional labor laws—build your schedule in minutes, not hours.

Optimize your labor operations

Make smarter, labor-saving business decisions by integrating your POS and payroll to track real-time variances in sales and labor. Easily identify opportunities to lower your labor costs and keep revenue flowing.
