

Quality & Precision for Easy Installation

American Panel is a family owned company started in 1963. American Panel provides exceptional coolers and blast chillers engineered to meet your exact specifications every time. With more than 53 years of experience in refrigeration and controlled cooling, American Panel offers high quality lines of cooling equipment from temperature controlled warehouses to modular units built to fit in any space. American Panel's modular series of blast chillers and shock freezers make site restrictions a thing of the past. These units are assembled in the field the same way a typical walk-in is erected.

No more wondering how you are going to get that large piece of equipment through the door. American Panel's quality and precision is offered in a flexible format no matter what piece of equipment you purchase.
