

Peace of Mind in an Unpredictable Time

Surfacide was founded in 2010 and its Helios® System is the world's only patented, triple emitter 'robotic' UV-C light solution to rapidly eliminate and prevent the spread of deadly pathogens on surfaces including Coronavirus, C.diff, MRSA, VRE, CRE and Acinetobacter. Made and manufactured in Waukesha, WI.

Surfacide is proud to deliver its scientifically proven, hospital grade UV-C technology to the world now more than ever. A trusted partner in infection prevention, Surfacide has been deployed in over 500 leading hospitals, nursing homes, dental offices, fire stations, prisons, police stations, commercial office spaces, hotels and public venues worldwide.

Program Features

- Hospital Grade UV-C Technology
- Unparalleled Innovation
- Multiple Emitters to combat shadows and provide greater coverage
- Automated system provides shorter cycle times and increased staff productivity without repositioning.
- Training and Support- onsite and virtual
