

Full-Service Cleaning Provider

The Service Companies is a full-service hospitality and commercial cleaning provider specializing in the behind-the-scenes work that keeps properties running at their best. Our core offering is consistent, daily overnight kitchen cleaning, a turnkey program in which our trained crews deep-clean commercial kitchens every night, including hoods, equipment, floors, and food-contact surfaces, so culinary teams arrive each morning to a sanitary, inspection-ready workspace. This service is ideal for hotels, resorts, restaurants, clubs, casinos, and healthcare or campus dining operations where kitchens run hard and downtime is scarce.

They also provide flexible housekeeping support designed to supplement or fully staff a property's housekeeping department. Members can structure billing to fit their operation, per clean, per occupied room, or hourly, making it easy to scale labor with occupancy and control costs during seasonal fluctuations.

The Service Companies offers a suite of specialty building services that protect and enhance a property's appearance and asset value: exterior window cleaning, high dusting, pressure washing, chandelier cleaning, comprehensive floor care, and upholstery and drapery cleaning.
