

Innovation and Expertise

Ricoh is a global leader in digital office solutions, focused on creating value where people and information converge. With a strong legacy of introducing new technologies into the workplace and a deep expertise in managing and accessing information, Ricoh is changing the way people work today with innovative products and dynamic solutions.

Ricoh offers digital copiers, facsimiles, multifunctional systems, scanners, printers, cameras and related supplies along with the software solutions needed for them to run smoothly.

Ricoh's best-in-class hardware will help you do more work in less time with higher security and exceptional ease of use.

Ricoh software transforms multifunction products into flexible document management systems allowing you to create, view, share and store business-critical information.

To request a new account under the CSM-Ricoh program, please send an email with your business name, location address and phone number to membersupport@csmcostsolutions.com.
