

UPS

Shipping Made Simple

As the world's largest package delivery company, UPS is a leader in transportation and logistics services in more than 200 countries and territories worldwide. The more you ship with UPS, the greater your company's savings.

You can leverage UPS' innovative web-based shipping and shipment tracking applications and they can be tailored to your company's shipping preferences in order to streamline the process and gain enhanced visibility into the latest shipment status.

Additionally, you have access to UPS' electronic billing solutions to help make your accounts payable process more efficient and to provide greater visibility into shipping spend.

To request a new account under the CSM-UPS Shipping program, please send an email with your business name, location address and phone number to membersupport@csmcostsolutions.com.
