

POS Receipt Solutions

Domtar is a leading North American manufacturer of fiber-based products, delivering pulp, paper, packaging, tissue, and thermal POS receipt solutions essential to everyday business operations. With vertically integrated operations, from responsibly managed forests to finished goods, it serves industries including retail, food service, and commercial printing.

Domtar's portfolio includes thermal receipt paper for retail, QSRs, gas pumps, and ATMs, featuring phenol-free and recyclable options that support evolving sustainability and regulatory requirements without compromising performance. Backed by strong domestic manufacturing and responsible sourcing practices, Domtar provides reliable, high-quality solutions for high-volume and specialized environments.
