

Perfectly Clear, Slow Melting Ice

Abstract Ice, Inc. is a premium ice manufacturer dedicated to enhancing beverage programs with perfectly clear, slow-melting ice designed for professional foodservice and hospitality environments. By combining innovative production techniques with thoughtful packaging, Abstract Ice delivers consistently high-quality ice that preserves flavor, improves drink presentation, and elevates the overall guest experience.

The company supports operators with a national distribution network, a dedicated sales team, and value-added tools such as ice branding stamps, specialty service equipment, and sampling capabilities for accounts evaluating new beverage concepts. Abstract Ice also prioritizes sustainability, utilizing post-consumer recycled content, recyclable materials, and operational improvements to reduce energy usage and waste across its production processes.
