

Upgrade Your Residential or Commercial Space

Schindler Elevator Corporation is a leading global provider of elevators, escalators, and moving walks, serving a broad range of industries, including commercial, residential, and institutional sectors. Founded in Switzerland in 1874, Schindler has grown to become a leader in urban mobility, offering innovative solutions that move over one billion people every day.

Schindler's product offerings include state-of-the-art passenger and freight elevators, escalators, and moving walkways designed to meet the specific needs of buildings of all sizes, from low-rise residential apartments to high-rise commercial towers.

Schindler elevators feature advanced technology such as energy-efficient regenerative drives, smart destination control systems, and integrated building management solutions to enhance performance and sustainability.
