

TRUE MANUFACTURING

INDUSTRY LEADING COMMERCIAL REFRIGERATION

True Manufacturing, established in 1945, is the category leader in commercial refrigeration and is recognized as "Best in Class" for their ability to provide outstanding refrigeration products and services to the foodservice industry. From traditional reach in coolers, food prep tables, under-counters, glass door merchandisers and many more, True has all the products needed for your refrigeration needs.

The CSM Cost Solutions program includes coverage for super-trailer items and non-

super trailer items. Super trailer items are products produced daily and consist of high volume, standard industry use and every day refrigeration equipment. On the other hand, Non-super trailer products are items purchased less frequently and are only scheduled for factory production a few days a month.

To request a new account under the CSM-True Manufacturing program, please send an email with your business name, location address and phone number to membersupport@csmcostsolutions.com.
